ProCórdoba Agency

ProCórdoba was established as a mixed-economy agency in which the public and private sectors interact to promote foreign trade policy and the internationalization of companies.

Its board of directors is composed of representatives of the **Government of the Province of Córdoba**, municipalities, and business chambers of different productive sectors and regions within the province.

The Agency has competence in all matters relating to the promotion of foreign trade in order to strengthen the export base of the province and to achieve sustainable growth of firms and products in international markets.
